1. In Japan, a psychiatrist found that many left-handed children were being affected negatively by being forced to use their right hand. The Japanese prejudice against left-handers has existed for a longer time than anyone can remember. In some areas, where teachers used to beat southpaw pupils children would feign right-handedness to avoid beatings. Fewer than 2 percent of the population will admit to being left-handed.

2. Mention Kenya to most people and they think of safaris, journeys through wild game preserves, and close-up views of exotic forms of wildlife. They would not think of vacationing on the seashore of this beautiful African country. Yet Kenya's coast, in fact, is one of the most beautiful in the world. Here coconut palms line beaches where the sand is a blinding white and the sea a clear, azure blue. One can swim underwater to see the colorful creatures that inhabit the coral reef. Or one may watch from the shore the distant sails of Arab trading ships.
