

# Adjust Class Assignment Settings

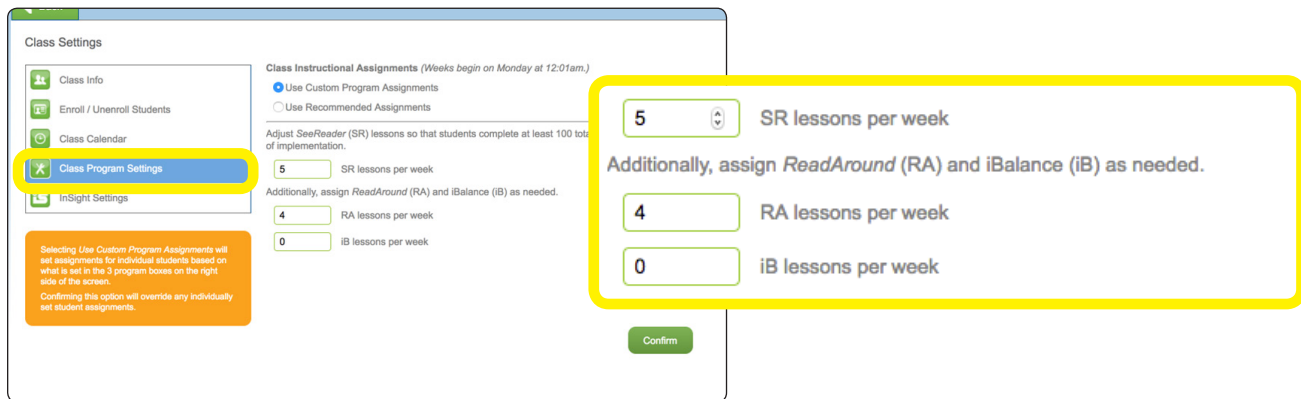

By default, students' weekly assignment schedules are based on initial assessment results. Students within a class will have varied schedules with varied time requirements. Refer to the [Class Placement Report](#) to see students' weekly assignment schedules, based on the initial assessment.

You can set the same number of weekly assignments for all students in Class Settings.

To adjust class weekly assignments:

1. Click Settings.
2. Click on the name of the class.
3. Click Class Program Settings.
4. Use Custom Program Assignments.
5. Use up/down arrows to adjust the number of weekly assignments in Reading (SR), Vocabulary (RA), and Visual Skills (iB) as needed.
6. Click Confirm.

Note approximate time requirements as you set a weekly class schedule:

- 1 Reading (SeeReader) lesson = 15 minutes
- 1 Vocabulary (ReadAround) lesson = 10 minutes
- 1 Visual Skills (iBalance) lesson = 10 minutes
